LIGHT IN THE HOUSE.

What Dr. Richardson, the Author of "Th Hygienie City," Says About It. Dr. Richardson, whose articles on health have been cited so much in a recent English publication produces an article called "Health and Home," which is replete with wisdom. A most important point, and one on which he dwells, is the fact that so many people are afraid of the light GRAY'S SPECIFIC MEDICINE.

TRADE MASK, The Great Eng-TRADE MASK.
Ilsh Remidy, an unfalling cure for Seminal Weakness, Spermatorrhya, inpotency, and all Discoses that follow as a sequence of Seil and the seminal way of the seminal potency. "The Special Medicine's sold by all dragstates." "In a dark and gloomy house you never can see the dirt that pollutes it. Dirt accumulates dirt, and the mind soon learns to apologize for this condition because the gloom conceals it." Accordingly, when a house is dark and dingy, the air becomes impure, not only on account of the ab ence of light, but from the impurities which are accumulated. Now; as Dr. Richardson eleverly puts it, we place flowers in our windows that they may have the light. If this be the case, why should we deprive ourselves of the sunshine and expect to gain health and vigor? Light, and plenty of it, is not only a purifier of things maniof it, is not only a purifier of things manimate, but it absolutely stimulates our brains. It is in regard to sick-rooms that this excellent authority is particularly impressive. It used to be the habit of physicians in old times to sedulously darken the rooms, and this paactive continues to some extent even to-day. In certain very acute cases of nervous diseases where light, the least ray of it, disturbs in over-exciting the visual organs, this darkening of the room may be permitted, but ordinarily to keep light out of the room is to deprive the patient of one of the vital forces. Children or old people condemned to live in darkness are pale and wan, exactly like those plants which, deprived of light, grow white. Darkness in the daytime undoubtedly makes the blood flow less strongly, and checks the beating of the heart, and these conditions are precisely each as highering and uch as bring constitutional suffering and lisense. "I do hate to give anyone trouble, but have you along stick or pole of any kind you could lend me?"

"No, sir; I told you so ten minutes ago," snapped the overdriven official.

"So you did," replied the man; "but I thought I'd just ask once more. I guess, now, I've done my duty in the matter. Don't you think so?"

"What matter? What on earth are you talking about?"

"Why, you see, my mother-in-law dived off down there at the deep end about half an hour ago, and as ahe hasn't come up yet I thought I'd like to tell my wife that I had sorter jabbed round on, the bottom for her awhile anyway, but if I can't, why, I can't; that's all."
